

INTRODUCTION TO ABM MOOC

Poll summaries

Areas of study/work of students

Economics

Finance

Computer Science

Archaeology

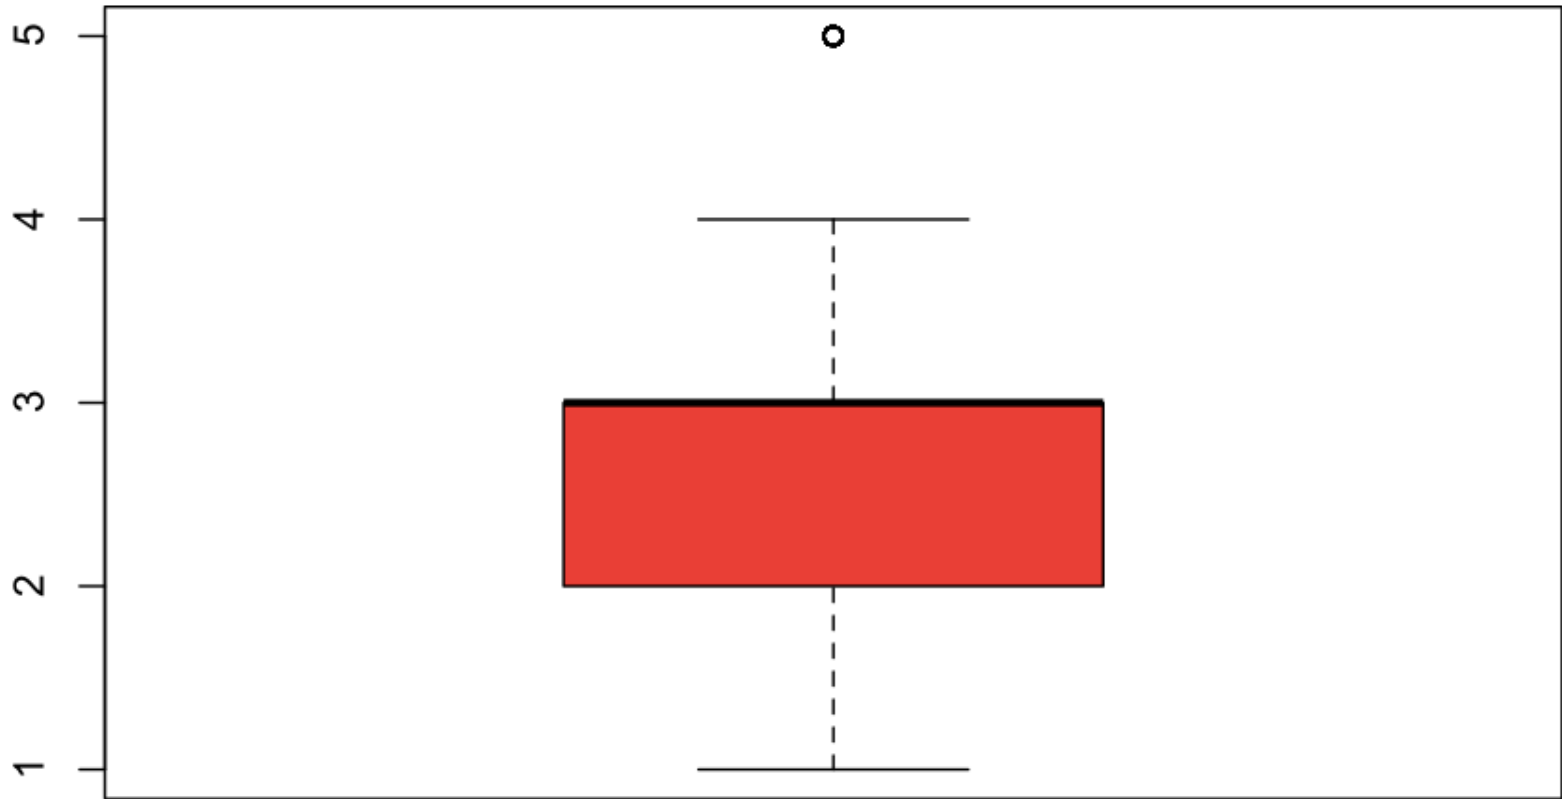

Operations Research

Public Health

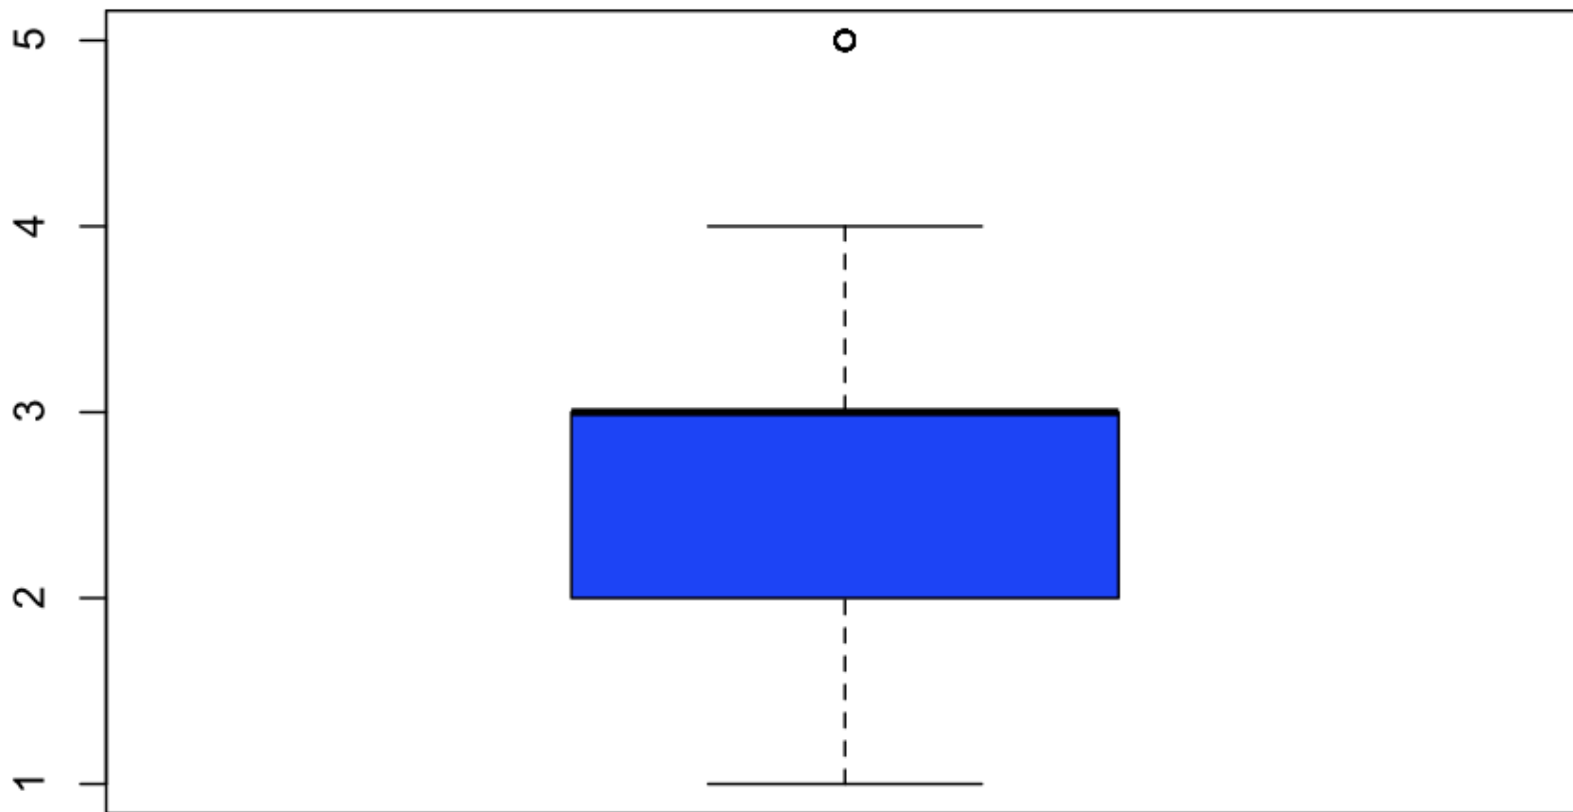

Self assessing as programmer

- No : 401
- Yes: 224

Programming Experience

Modeling Experience

Top Expectations of the Course (by word frequency)

- abm 385
- model 283
- models 193
- use 142
- research 140
- understanding 125
- learn 124
- netlogo 123
- modeling 112
- complex 101
- based 98
- agent 91
- can 91
- create 91
- system 85
- understand 84
- agentbased 83
- using 83
- will 82
- want 78
- work 74
- like 73
- better 68
- build 64

What phenomenon would you like to build a model of?

- social 22
- people 18
- network 14
- spread 11
- market 10
- population 10
- time 8
- abilities 8
- drug 8
- groups 8
- interactions 8
- local 8
- water 8
- cognitive 7
- dynamics 7
- human 7
- influence 7
- food 6
- general 6

What model in Netlogo is similar to a model you want to build?

- Wolf Sheep Predation
- 143-model-consumer-behavior
- Rebellion
- Simple Birth Rates
